Join on Zoom: **Thursday 27th November 2025**
at 12:00-13:00

Talk 1

"Psychedelics for Depression"

Prof David J. Nutt

Professor of Neuropsychopharmacology and Director of the Centre for Psychedelic Research, Imperial College London

A psychiatrist and leading authority on brain-acting compounds, he studies how psychedelics may unlock rigid neural networks to treat depression. Founder of DrugScience, he champions evidence-based drug policy and led groundbreaking neuroimaging studies, including the first LSD brain scans.

Talk 2

"Young People as Co-Researchers Building Agency to Influence Health and Other Systems"

Prof Amanda Taylor-Beswick

Professor of Digital Social Science, University of Cumbria

& Georgia Denham

Senior Youth Worker and Youth Participation Lead, Carlisle Youth Zone

Amanda and Georgia work at the intersection of youth voice, wellbeing, and digital society. Amanda, a social worker turned academic, researches how technology can drive social good and prepare future professionals for a digital world. Georgia, a theatre graduate and youth leader, uses creative performance to empower young people and strengthen their influence in their communities.
